REP-120 · Release 1.23.0: the text pass and the small phone fixes

Game	Fruit Market 1.23.0, rules version 19 (unchanged). Live before it: 1.22.0
Report date	2026-11-14 14:47 (Asia/Kuala_Lumpur)
Type	Release
Request	Owner, 2026-11-14: "publish" (after "okay ive edited, reflect the changes in the digital and physical copy")
Approval	DEC-118, approved. Published by the release path in CLAUDE.md; if a required check fails nothing is published and the owner is told

1. What 1.23.0 holds

Package	What players see
PLAN-096	The morning fits a small phone with six stalls; the event's name in the top bar shows in full; larger touch areas for the event chip, the pricing and stocking minus and plus, the info button and Home's dots; faint labels darker; 907 lines of unused styling removed (no visible change)
PLAN-097 (REP-118)	The wording pass: 92 proposals, 16 rows in the owner's own words (Home's waiting game shows "Today:" and the event card's name; the pass-the-phone subtitles removed; "+$n from the Market" in the morning; shorter buying tips), 2 kept; the print kit rebuilt with the same card words

Rules version stays 19: phones on 1.22.0 can still play online with phones on 1.23.0; saves and progress carry over.

2. Checks before publishing

Check	Result
`npm run verify` on the merge (904 tests)	PASS
`npm run test:e2e`	PASS on the text pass branch (0 leaks); PLAN-096: GitHub CI run 141 PASS (the local speed test fails on this machine for the live build too)
CI on the pull request and on main (`verify:full`)	to run
Deploy workflow: verify, release check, deploy, live smoke test, tag `v1.23.0`	to run
Played by people on 1.23.0	NOT RUN (the owner, once live)

3. Known gaps

- The update pack and guidebook still describe rules 18's evening (one Priority card each evening); not rebuilt (a separate plan). The printed cards are rebuilt and now show rules 19's

Priority text.

- Not in the text list and still in the old wording: the buying and tie hand-over subtitles, the bid-waiting line, a How to play sentence, "will not take Soft", "soft sells $2 less".
- The 8 name choices (REP-118) are not decided; names unchanged.
