PRINTING AT HOME

- A4 card (250 to 300 gsm), 100% or "actual size", background graphics on.
- Double-sided, flip on the long edge: each fronts page is followed by its backs, mirrored to line up. The 139 cards take 19 sheets.
- Cut on the dashed lines. Cards are 63 × 88 mm (poker size).
- Each dot on a customer card is one piece that customer wants.

NOT IN THIS FILE

- The rules guidebook, the stall sheets and the counters with the cash track: the update pack (print/update-18; its guidebook gives the standing-order numbers of rules 18, the cards here those of rules 19).
- The two freshness trackers on test: print/tracker-test.
- The market board, shutters, fruit pieces, price tags and markers: from the earlier printing.
- Factory files are RGB; the printer converts to CMYK.

FRUIT MARKET

PLAYER AID

RULES VERSION 19

A DAY IN FIVE STEPS

1 MORNING

Turn over today's **event** and apply it (walk-in events add or remove walk-ins now). From Day 2, a stall with an empty shelf and less than $5 is topped up to $5. The lorry unloads today's card at the freshest spot (Green fruit at the Green spot, the Seconds Lorry at Okay). Draw tomorrow's lorry, tomorrow's regular (face up) and tomorrow's walk-ins (face down). On a Market Day, bid for the standing order.

2 BUYING

The **poorest stall buys first, then the others go clockwise** (ties: first clockwise from the token; Day 1 starts at the token; Priority jumps the queue). Buy up to **4** pieces (5 with a Handcart), paying the cost for each fruit's freshness. Your shelf holds 8 (10 with a Handcart).

3 STOCKING

Today's walk-ins turn face up. Secretly move the pieces you will sell into your **crate**. Then say how many pieces are in it, not which fruit. Only pieces in your crate can sell.

4 THE BELL

Secretly set **one price per fruit** in your crate. Then everyone shows prices and crates together. No lower limit. A stall with a tied price may then play Favoured Trade.

5 THE RUSH

A standing order collected today goes first, then the row left to right. Each fruit goes to the **cheapest stall** with fruit fresh enough for its price; what is still wanted goes to the next stall. Serve a customer's whole remaining order by yourself and **draw a favour card** (one a day at most).

+ EVENING & NIGHT

Play evening favours (Priority, Gossip). On the evening after each Market Day (days 3, 6, 9 and 12) build **one** stall upgrade. At night all fruit ages one step; spoiled fruit is thrown away.

THE CRIER'S PRICE RULE

READ EACH CUSTOMER LINE ALOUD

The crier (the player who bought last that morning) pays the stalls from the bank. For each customer line, say the real **top price** for the day: the card price plus any event, Closing Day or Fixed-prices change. Then which fruit qualifies at each price:

Above the top	NOTHING SELLS	(a Premium Display may go $1 over for fresh fruit, never for a guest)	
The top	**FRESH ONLY**		
Top – 1	**FRESH OR OKAY**		
Top – 2 or less	**ANY FRUIT** (Fresh, Okay or Soft)		

The **cheapest** posted price sells first, and each stall hands over its **oldest piece that still qualifies**. On a tie, the stall whose freshest handed-over piece is younger sells first.

FRESHNESS TYPES

Premium: Fresh only. **Everyday:** Fresh or Okay. **Bargain:** Fresh, Okay or Soft. A stall cannot sell fruit a customer will not take.

TIES AT THE BELL

Favoured Trade, then fresher fruit (the younger handed-over piece), then the Haggler, then whoever bought earlier today.

MARKET RHYTHM

Market Days (days 3, 6, 9 and 12, never the last): a standing order in the morning and an upgrade that evening. **Closing Day:** customers pay $1 more; then the jam maker buys leftover ripe fruit at $1 each. Guests' prices are fixed: only Closing Day adds to them.

Full rules: RULES.md. Every number on this page comes from the game data.
