# REP-026 · PLAN-010 built: the farmer's lorry

| | |
|---|---|
| Game | Fruit Market |
| Report date | 2026-10-27 07:54 (Asia/Kuala_Lumpur) |
| Package | PLAN-010, approved ("approve") |
| Build | commit bc2e760, merged to `main` for the preview |
| Delivery status | Verified |

## What changed

- Each morning your Gemini lorry drives into the street and parks; the customers step aside.
- The delivered fruit flies from the lorry into its own slot on the market board.
- When buying ends and pricing starts, the lorry drives off. On "Lorry Breakdown" days it doesn't come.
- It's quick (about 1 second to arrive) and never blocks play. Tapping speeds the unloading; reduced-motion turns the driving off.
